

Steps

SPECIAL TOYS EDUCATIONAL POSTAL SERVICE

Does your child have a physical disability, learning disability or developmental delay?

Do you wish your child could play independently with high-street toys?

Well Elmo has the answer...

You should contact Steps!

What We Do

Established over 20 years ago, Steps is a toy library full of specialized and mainstream toys which have been adapted so that, by using an external switch, children can play with the toys by squeezing, pushing, blowing or using whatever movement they have.

How We Help

We offer a postal library membership where you and your family can access hundreds of adapted toys and switches for children to enjoy at home. We also loan to schools, community groups and hospices.

Surely it's expensive?

From 25p per day for families, £1 for Organisations or apply for free with our Membership Support Fund. *Toys, switches and all postal costs included!*

How To Help Us

We fundraise to support the full cost of memberships and our Membership Support Fund. Please visit our website for a fundraising pack.

A big thank you for your support!
